

AJPR 50

Heavy-Duty Wall-Mounted Pre-Rinse Spray

WRAS approved

The Catering Professional's Solution for Demanding Kitchens
Specifically engineered to ensure long service life and satisfaction

= Enjoy significant water savings when fitted with water-saving face plate.

UP TO 25%

When connected to a potable water supply, the AJPR50 is ideal for rinsing and washing vegetables & other food.

The AJPR50 is a specially designed **"Heavy-Duty Pre-Rinse Spray"** engineered to withstand the rigours of busy commercial kitchens. It combats the constant twisting & turning that usually weakens traditional pre-rinse units - **perfect "mis-use" resistant model for hard-working professionals!**

- WRAS listed
- Meets WRc backflow prevention requirements
- Energy-saving construction uses less than 6L/min water @ 4-bar pressure when fitted with water-saving face plate
- Pre-assembled & tested - ready for quick installation
- Robust & durable, to provide years of service
- Smooth casing and wipe-clean hose makes cleaning easy for good hygiene and maintenance
- Built-in restraining device prevents spray gun from being pulled into dishwater
- Wall mounting keeps the sink deck clear
- Big bore delivery hose produces excellent spray pattern
- Less reliance on brass hardware provides good value and reliable service life

Bright *ideas* for professional kitchens

MECHLINE

AJPR 50
WRAS approved

Front View **Side View**

Standard Model: **AJ-PR-50**

Model with optional water-saving face plate (as pictured): **AJ-PR-50-W**

- Wipe-clean surfaces promote good hygiene
- Water connection & inlet valve inbuilt
- Built-in restraining device prevents the over-extension of hose into the dishwasher
- Easy to clean, coiled hose absorbs the wear & tear from twisting the gun to spray dishes
- Angled spray gun for easy use
- Optional water-saving face plate, available at no extra cost. Save up to 25% in water costs!

AJPR50 in the 'stored' position:

Choose from a great range of optional extras...

The AJPR50 (AquaJet 50) is ideal for pre-rinsing dishes before they're loaded in dishwashers. And when connected to a potable water supply, it is excellent for rinsing and washing food.

Consider adding a mixer tap for a complete dishwash package! And, if a mixed water supply on the AJPR50 is preferred, consider adding a mixer valve.
