MODELS: CZP EP AT 20S, CZP EP AT 40S

CATERZAP

manufactured by **MECHLINE**

Thank you for purchasing your CaterZap product.

MODEL: **CZP EP AT 20S**

FINISH: Stainless Steel

RANGE OF ACTION: 40Sq M

INPUT: 220V~240V /50Hz

POWER: 16W

BULB TYPE: 1x13W E27

MODEL: **CZP EP AT 40S**

FINISH: Stainless Steel

RANGE OF ACTION: 80Sq M

INPUT: 220V~240V /50Hz

POWER: 29W

BULB TYPE: 2x13W E27

GENERAL

The electronic insect killer utilizes ultra-violet rays, which are proven to be the most effective lure for light-sensitive flying insects, such as flies, moths, mosquitoes, etc. These insects are electrocuted by the electrically-charged metal grids. There are no chemicals, no smells, no sprays and no mess. The fly killer is pollution-free and harmless to humans and pets. It is ideal for use in houses, factories, food outlets, cold rooms, hospitals and other places. Indoor use only.

PRECAUTIONS

1. High voltage! Disconnect power before repairing or cleaning.
2. Hang or mount in a safe place and away from children.
3. Never put metal objects inside the grids while in operation.
4. Keep away from flammable materials.
5. Check the voltage before operating. Confirm it is correct for the requirements of the fly killer.
6. If damaged, supply cords must be repaired or replaced by a qualified technician.
7. The insect killer cannot be used in garages, stables or similar places.
8. Clean the collection tray regularly.
9. Use caution when handling. Beware of possible sharp edges.
10. If the bulb(s) supplied with the unit has a clear, plastic sheath around it, do not attempt to remove it. It is integral to the bulb and should not be removed.

WARNING

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
