

MODEL:

AquaJet MERK15/FBG

AQUAJET

Wash Down Hose Reel with Fan Blade Head Gun (includes a wall mounted PIVOT bracket)

FEATURES & BENEFITS

- Spring loaded latch mechanisms allow complete positive hose retractions every time.
- Ground edge drive springs minimise fractures found in conventional slit edge springs.
- Full flow shaft and swivel ensure no water pressure drop or restriction of flow.
- De-clutching arbour eliminates the possibility of spring damage due to reverse winding of the reel spool.
- Hose changes are made easier on open reels as the reel does not need to be pre-tensioned.
- A variety of mounting options available.
- Material: UPVC (Polypropylene).
- NB: Installation must comply with local water authority codes. Isolation controls and check valves not included.
- NB: Minimum 3-bar pressure is recommended to provide reasonable washing performance

TECHNICAL INFO

- Water Pressure: 3 - 17 bar (250psi).
- Hose length: 15m (50ft).
- Hose dia: 12mm (½-inch).
- Inlet: ½-inch BSP, female connection.
- Flow rate per minute - 6.50 LPM at 3 bar
