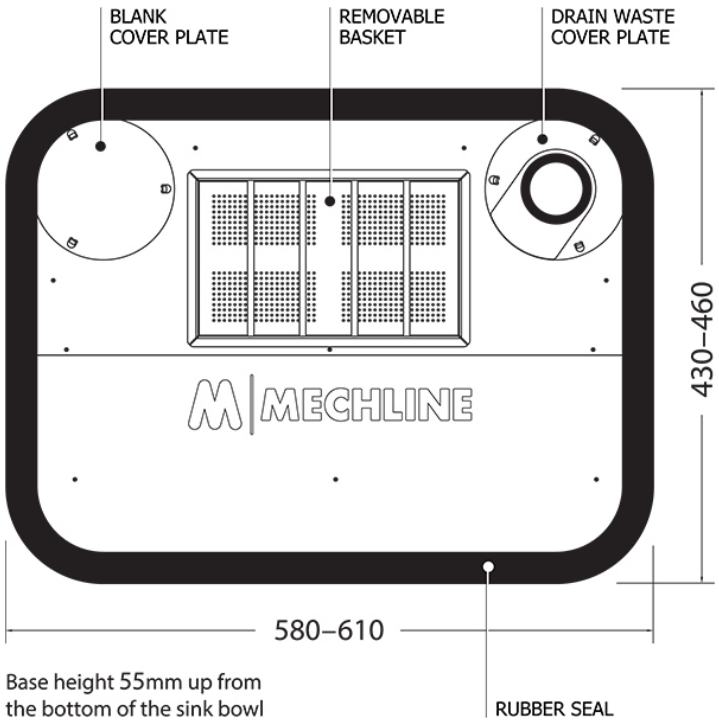
MODEL: **FWS600-3**

FOOD WASTE **STRAINER**



Dimensions are in millimeters. If a Cad file is required please visit www.mechline.com.

MECHLINE FOOD WASTE STRAINER to fit sink bowl sizes between 580-610mm in length and 430-460mm in width

FEATURES & BENEFITS

- Designed to reduce food waste particles from entering the drainage system via the sink drain boss.
- The unique, adjustable cover plates allow the system to be fitted to bowls with the drain waste on the left or on the right of the sink bowl.
- Raised angle of front end aids the rinsing of food particles into the food waste basket ready for emptying.
- Removable basket allows trapped food waste to be easily emptied into the bin Ð leaving no mess left in the sink bowl to deal with.
- Easy to remove and replace the whole system, to allow periodic cleaningthrough the dishwasher.
- Reducing the amount of food waste entering the drain will help to prolong service intervals for Grease Traps.
- Sink plug upstand can be supplied and is available in two sizes (250mm or 300mm long) which will fit a standard 1 ½ inch (40mm) waste (for the system to work efficiently, an upstand is required).

TECHNICAL INFO

- IMPORTANT NOTES The Mechline food waste strainer comes ready assembled for a right-hand side drain waste. If the system is to be fitted in a sink bowl with the drain waste located on the left-hand side, the cover plates are very easy to swap over. For the food waste strainer system to work efficiently, a plug upstand strainer is required. The upstand must be lower than the sinks brim.
- MATERIAL Durable 1mm 304 Stainless Steel
- WEIGHT 3.25 kg (unboxed and without plug upstand)
