## MOBILE HAND WASH STATIONS

# BASIX

The all new space-saving, mobile hands-free basin. Facilitating hygienic handwashing in any location—even where water, waste and electric utilities are not available.

Provides a market leading 24 hand washes per litre.

### OTHER BENEFITS

**Manufactured in the UK** with ease of use and water saving in mind.

Optional extras include **soap/sanitiser dispenser**, hanging **bin** and **towel dispenser**.

**Hands-free technology** improves health and safety, by removing the need for manual contact and **preventing the spread of germs by hand**.

CAN PROVIDE  
**OVER 300**  
**HAND WASHES**  
PER WATER  
CONTAINER

### Water saving spout

Models are hands-free operated with a water saving spray pattern spout. Complete your station by adding an optional soap/sanitiser dispenser, as pictured below.

### Improve hygiene

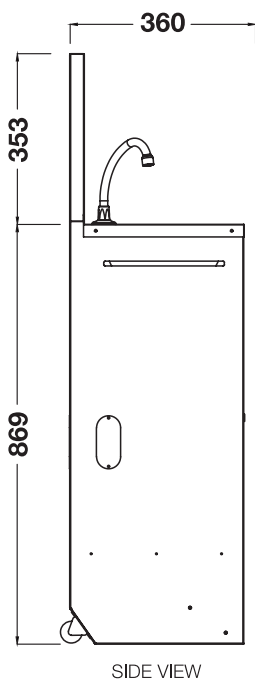

Hand-washing is the number one prevention against the spread of viruses, bacteria and other pathogens. Good hand-washing habits can be encouraged with the right equipment installed in the correct position.

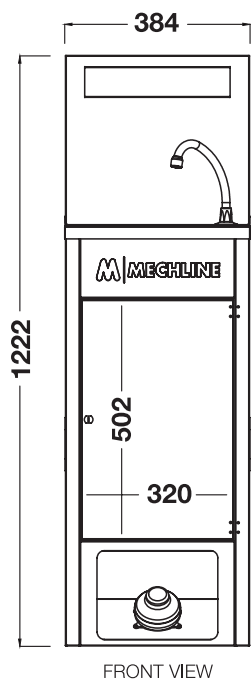

### Portable

Removable castors and integrated grab handle within the splashback allow simple transportation. Can easily be moved without the need to carry equipment. Ideal for use at entrances to buildings/operations.
