

HYGIENE & INFECTION CONTROL

Mobile Hand Wash Basins & Conversion Kits – to provide hygienic handwashing in any location

- **Space-saving, mobile basins** are ideal for entrances and small areas – as they **can be located where water, waste and electric utilities are not available**
- Conversion kits can **transform an existing hand wash basin** into a more hygienic, hands-free option – quickly and easily
- Hands-free technology significantly reduces cross-contamination and can **help prevent the spread of viruses, bacteria and other pathogens**
- With the right equipment venues can **encourage frequent handwashing** and effortlessly provide handwashing facilities **at all entry points**
